- Speaker cables and all other cables needed to connect the speaker system
- 1 floor monitor or ear monitor
- 2 direct boxes
- 2 instrument cables (quarter to quarter)
- 3 microphone cables
- 1 microphone (Shure[®] SM 58 or equal)
- 1 power strips with surge protectors
- 1 grounded extension cords
- A method of projecting worship songs for the congregation (i.e. a computer with MediaShout[®] or PowerPoint[®] and a projector)²
- Screen for projection

2. Events requesting Worship Leadership or Performance by Darrell Smith and band:

- A dedicated sound technician for the event¹
- A public address system or speakers that can adequately meet the sound expectation for the size of the room the event is in.
- Sound board with at least 12 channels and two buses
- Speaker cables and all other cables needed to connect the speaker system
- 4 floor monitors or ear monitors
- 7 instrument cables (quarter to quarter)
- 7 microphone cables
- 3 microphones (Shure[®] SM 58 or equal)
- 3 music stands
- 2 power strips with surge protectors
- 2 three-prong extension cords
- A method of projecting worship songs for the congregation (i.e. a computer with MediaShout[®] or PowerPoint[®] and a projector)²
- Screen for projection

3. Events requesting Chapter Three Ministries bring all needed A/V equipment:

- Please contact Chapter Three Ministries to determine cost.

¹ If needed, we can provide a sound technician for an additional cost.

² You will need to notify us regarding your projection method so we can determine what resources we need to bring. If needed, we can provide a video/projection technician for an additional cost.
